

Interest Area Success Teams

Creative Arts, Languages, & Communications

Strengthen community and connection

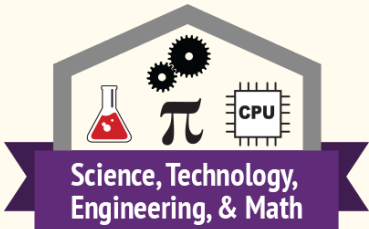

Strategies include:

- Pre-semester videos and emails to greet students and help them know what to expect
- Increase instructor's social presence
- Use student surveys at semester checkpoints

Creative Arts, Languages, & Communications

The beauty of the teams are the different perspectives! Listen to the various perspectives, you can gain so much

Science, Technology, Engineering, & Math

Science, Technology, Engineering, & Math

Focus on Connection and Community building in the STEM programs.

Strategies include:

- Mentoring program connecting faculty and students
- Paired courses, connecting learning and students

The breadth and the impact these ideas have can actually make a change, that is incredible

Social & Behavioral Sciences, & Education

**Create awareness of SBSE among students and throughout the campus
Foster the feeling of belongingness for SBSE majors**

Strategies in development.

Social & Behavioral Sciences & Education

Be willing to be flexible! We get stuck in our ways, believing we know best. Be willing to put new ideas into practice.

Business & Entrepreneurship

Business & Entrepreneurship

Connect education to career.

By increasing student exposure to the rich diversity of people & career fields within the broad interest area of Business & Entrepreneurship.

Strategies include:

- Develop Videos and Associated Materials for career development/Work Based Learning & assignments
- Create "student journey roadmaps" for each program
- Revise BUSE 100
- Create a "faculty awareness plan."

Ground everything in data- not just what we know or experience

Health, Wellness, & Public Safety

Team just formed Jan 2022

Health, Wellness, & Public Safety

Don't be afraid to do multiple things as once but still move forward
