

#### Overview

This form is a workbook for participants in Miramar College's Data and Equity Coaching Community (DECC). It has two main parts separated into four sections:

Part I: Investigative Research and Reflection (Sections I through III)

The investigative research consists of quantitative and qualitative questions about your courses and students. You will fill out each section to the best of your ability, using data/information provided by the Research Office and your own knowledge of your courses/students.

#### Part II: Action Plan (Section IV)

The action plan is what you plan to change in the classroom based on what you have learned during the investigative research. You will determine your own timeline and activities in the action plan, after consulting your dean and researchers.

This form is estimated to take 60 minutes to complete (not including time spent discussing questions with other DECC participants). If you do not complete the survey in one session, you can use the link emailed to you to edit your responses until the survey closes. Responses are only saved when you click the "Next" button at the bottom of each page or complete the entire form.

It is recommended that you complete the form on a device with a full keyboard (i.e., a laptop or desktop computer).

Pre-Session Question	
What are you expecting to find when you examine your student re	tention and success data?

Section I: Enrollment, Retention, and Success

# Section I.1: ENROLLMENT BY DEMOGRAPHIC

For each demographic below (i.e., race/ethnicity, gender, age group), what percentage of students enrolled in your course(s) fall into each category?

As you fill in the tables below with your percentages, please keep in mind which demographics in your course are higher or lower compared to your overall college.

# 2. Enrollment Percentage by Race/Ethnicity

American Indian	
Asian	
Black/African American	
Filipino/a	
Latinx	
Pacific Islander	
White	
Multiple Ethnicities	
Other, unreported or N/A	
3. Enrollment Percent	tage by Gender
Female	
Male	
Non-Binary	
Other upreperted or N/A	

7 and Under	age by Age Group					
8-24						
5-29						
0-39						
0-49						
0 and Over						
Other, unreported or N/A						
,

## Section I.2: COURSE RETENTION RATES BY DEMOGRAPHIC

For each demographic below, what percentage of students enrolled in your course(s) did not withdraw and received a valid grade (i.e., course retention rate)? A valid grade is typically any grade A-F.

As you fill in the tables below with your percentages, please keep in mind which demographics in your course are higher or lower compared to your overall college.

8. Retention Rate by I	Race/Ethnicity
American Indian	
Asian	
Black/African American	
Filipino/a	
Latinx	
Pacific Islander	
White	
Multiple Ethnicities	
Other, unreported or N/A	
9. Retention Rate by	Gender
Female	
Male	
Non-Binary	
Other, unreported, or N/A	

5-29	.0. Retention Rate by	Age Group			
2. After analyzing your course retention rates, what follow-up questions do you have? What else would you to know about your students? What next steps could you take to obtain the answers to your questions?  1. What retention trends do you see among the different demographics? Do you notice any similarities mong the students who retained or withdrew? Are you surprised by any of these trends, or are they what y expected? Why do you think these trends exist?  2. After analyzing your course retention rates, what follow-up questions do you have? What else would you to know about your students? What next steps could you take to obtain the answers to your questions?  13. Are you interested in increasing the retention rates of a specific demographic? If Yes, what informatic support, or training would you need to help you increase that demographic's retention rates? What would your next steps?  Yes (please elaborate below)  No  If Yes, what information, support, or training would you need to help you increase that demographic's retention rates? What would you have?	7 and Under

# Section I.4: LONGITUDINAL ANALYSIS (IF APPLICABLE)

#### **INSTRUCTIONS:**

- 1. In this part of the section, you will review enrollment, retention, and success for courses that you have taught for more than one term.
- 2. Prior to starting, you must meet with your institutional researcher(s) to determine what course data is available for you to analyze.
- 3. If you have not taught more than one term, leave these questions blank and continue to the next page.
- 4. You are encouraged to discuss your answers with your fellow faculty, researchers, and deans. However, you are responsible for writing your own responses.
- 5. Use a copy of the printed version of the online form to keep track of your answers in case technical issues arise.

course format (e.g., fully on campus/in person, fully online, or hybrid)? Are you surprised by ar trends, or are they what you expected? Why do you think these trends exist?	•
22. Do you see differences in enrollments, course retention, and course success/completion du <b>terms</b> ? For example, do your courses have higher attendance in the spring term compared to the Are you surprised by any of these trends, or are they what you expected? Why do you think the exist?	ne fall term?
23. Do you see differences in enrollments, course retention, and course success/completion who course is offered in the evening versus in the morning versus in the afternoon? Are you surprise these trends, or are they what you expected? Why do you think these trends exist?	

ist?			

#### Section I.5: STUDENT CHARACTERISTICS

#### **INSTRUCTIONS:**

- 1. In this part of Section I, you will be asked to reflect on the types of students you previously taught.
- 2. Take time to reflect and answer each question to the best of your ability.
- 3. You and/or your institution may have captured information about student characteristics, but you do not necessarily need data or research to answer these questions.
- 4. You are encouraged to discuss your answers with your peers, researchers, and deans. In fact, some questions will ask you to engage with your fellow faculty members. However, you are responsible for writing your own responses.
- 5. Use a copy of the printed version of the online form to keep track of your answers in case technical issues arise.
- 25. Have you ever taught students with any of the following characteristics?

	Yes	No	I don't know/data not available
Students who have part- or full-time jobs		$\circ$	$\circ$
Students whose primary language is not English			
Students who received DSPS services			
First-generation students			
Homeless students			
Single parents			
Students who are active military or veterans	$\bigcirc$		
Students who are currently, or were previously, in the foster care system			$\bigcirc$
Out-of-country residents (e.g., Mexico)			
Low income students students			
Students who participated in Extended Opportunity Programs and Services (EOPS)		0	$\circ$
26. How do you find out about your students' bac strategies do you use to learn more about your st	_		

28. For each characteristic that you selected "Yes" for (above), what methods or strategies do you apply in the classroom to retain these types of students or to help them complete your course? What could you do more dess of?  29. If you selected "No" or "I don't know/data not available" for <b>all</b> student characteristics above, what method or strategies do you apply in the classroom that could help these types of students with course retention or completion?  30. Pick one (or more) fellow faculty member(s)—preferably a peer who is also participating in the DECC—and share how you learn about your students' backgrounds and how your methods and strategies may help hese types of students with course retention and completion. What do you do similarly or differently? Are	classroom to retain these types of students or to help them complete your course? What could you do mo less of?  29. #### Section II.1: Course Materials

#### **INSTRUCTIONS:**

- 1. Now that you reviewed student demographics and characteristics, this section will ask you to reflect on the language used in your course materials, specifically the syllabus.
- 2. Please have a recent syllabus in hand as you reflect and answer each question.
- 3. You do not need data or research to answer these questions.
- 4. You may choose to repeat this exercise/section for other materials in your course (e.g., assignments); however, for the purpose of this online form, you are only expected to provide information about your syllabus.
- 5. You are encouraged to discuss your answers with your fellow faculty, researchers, and deans. However, you are responsible for writing your own responses.
- 6. Use a copy of the printed version of the online form to keep track of your answers in case technical issues arise.

With your syllabus in hand, please answer the following questions as objectively as possible:

First impression: How are you, as the reader, greeted? What are the first message teive from this document? How does the document make you feel (e.g., overwhelr cited, confused)?	,
Message: From your point of view as the reader, is the purpose/goal of the document needs to be clarified, elaborated, or illustrated to help students understand? Do one clarity or is it likely to make students feel overwhelmed?	
Language: What technical or "specialized" language is used? Is there limited acadent need a glossary to understand the contents?	demic jargon or does th

# Section II.2: Classroom Policies and Assessments

#### **INSTRUCTIONS:**

- 1. In this part of the section, you will be asked to reflect on your classroom policies and assessments.
- 2. You do not need data or research to answer questions in this part of the section.
- 3. Select the answer that is closest to your own practices.
- 4. You are encouraged to discuss your answers with your peers, researchers, and deans. In fact, some questions will ask you to engage with your fellow faculty members. However, you are responsible for writing your own

#### responses.

5. Use a copy of the printed version of the online form to keep track of your answers in case technical issues arise.

#### **CLASSROOM POLICIES**

2. How do you <b>initially</b> respond when a student is absent? Select the answer that is closest to your own
ractice.
I mark them as absent
I ask them if they would like to withdraw from the class
I contact the student or ask them directly why they were absent
I deduct points from their overall grade
I do nothing / I do not penalize them
Other, please specify:

46. How do you initially respond to students who do not finish assignments completely or on time? Select the
answer that is closest to your own practice.
I talk to them and determine if I should give them an extension
I do not accept the assignment and give them no points
I accept the assignment but take points off the grade (i.e., late penalty)
I ask them if they would like to withdraw from the class
Other, please specify:
47. How do you <b>initially</b> respond to students who do not successfully pass an exam (or another major assessment)? Select the answer that is closest to your own practice.
I talk to them and determine if they should retake the exam
I give them the grade based on their performance
I ask them if they would like to withdraw from the class
Other, please specify:
48. How do you respond to students who consistently do not successfully pass an exam (or another major assessment)? Select the answer that is closest to your own practice.  I talk to them and determine if they should retake the assessment  I give them the grade based on their performance  I ask them if they would like to withdraw from the class  Other, please specify:
49. Pick one (or more) fellow faculty member(s)—preferably a peer who is also participating in the DECC—and share your attendance, tardiness, and assessment policies. What do you do similarly or differently? Are there any ideas that you would adopt? Why or why not?
50. Thinking about the different student demographics and characteristics you explored in Section I and Section II, respectively, are your classroom policies conducive to the success of these types of students? Why or why not?

# Section II.3: ASSESSMENT ANALYSIS (OPTIONAL)

# **INSTRUCTIONS:**

This part is **OPTIONAL**.

- 1. In this part of the section, you will reflect on the timing of your assessments with the number of students remaining in your class throughout the term.
- 2. Refer to one course section to answer these questions. You and/or your institution may have captured data on student attendance.
- 3. You may repeat this exercise with other course sections to determine if trends exist; however, for the purpose of this online form, you are only expected to provide information about one section.
- 4. You are encouraged to discuss your answers with your fellow faculty, researchers, and deans. However, you are responsible for writing your own responses.
- 5. Use a copy of the printed version of the online form to keep track of your answers in case technical issues arise.

What assessments do you incorporate in your class to capture your students' progress? For up to eight assessments, describe the assessment type (e.g., quizzes, team projects, homework assignments, exams, essays), the weight of each assessment (e.g., 50% of total grade), and the number of times that assessment is given in a term.

51. Assessment One

# Section III: Student Engagement and Characteristics

#### **INSTRUCTIONS:**

- 1. In this part of Section II, you will be asked to reflect on how you engage with your students in general.
- 2. You do not need data or research to answer these questions.
- 3. Select the answer that is closest to your own practices.
- 4. You are encouraged to discuss your answers with your peers, researchers, and deans. In fact, some questions will ask you to engage with your fellow faculty members. However, you are responsible for writing your own responses.
- 5. Use a copy of the printed version of the online form to keep track of your answers in case technical issues arise.

#### STUDENT ENGAGEMENT

63. How do you generally engage with y closest to your own practice.	our students <b>before</b> the first day of class? Select the answer that is
I allow students to access the learning sys them an email before the first day of class	tem (e.g., Blackboard, Canvas) so they can review course materials, but I do not send
I email students a welcome letter, course v	vebsite, syllabus, and other logistics
I email students an assignment, which is d	ue on/before the first day of class
I do not communicate with students prior to	the first day of class
Other, please specify:	
64. How do you generally engage with y closest to your own practice.	our students <b>during</b> the first day of class? Select the answer that is
I provide an orientation of the class (e.g., r	eview the syllabus, set course expectations).
I ask students to introduce themselves and	l/or do icebreakers, and then I provide an orientation of the class.
I provide an orientation of the class and the	en I start teaching the material (i.e., dive into the course material).
Other, please specify:	

65. How do you get to know, or connect with, students enrolled in your course? Select the answer that is
closest to your own practice.
I give my students a survey to respond to about their interests, why they enrolled in my course, etc.
I have one-on-one conversations with my students.
I have my students submit a reflection essay or an assignment about their intent, background, etc.
I get to know them during the icebreakers in class.
Other, please specify:
66. Pick one (or more) fellow faculty member(s)—preferably a peer who is also participating in the DECC—and share how you connect with students. What do you do similarly or differently? Are there any ideas that you would adopt? Why or why not?

#### Section IV: Action Plan

#### **INSTRUCTIONS:**

- 1. Now that you completed the investigative research and reflection questions of the online form (Section I through Section III), this section will ask you to develop an action plan in your classroom.
- 2. Think about what you are able to accomplish specifically in your own classroom.
- 3. You can refer to your answers in the previous sections (using the printed version of this online form) to help you answer this section's questions.
- 4. You are encouraged to discuss this section with your fellow faculty, researchers, and deans as you complete this form. However, you are responsible for writing your own responses.
- 5. Use a copy of the printed version of the workbook to keep track of your answers in case technical issues arise.

#### 67. Statement of Need

Based on what you learned in Section I through Section IV of this online form, what challenge(s) or issue(s)
would you like to address with your action plan? (Example answer: "Based on Section I, I found that female
students have lower retention rates than male students in my course. I would like to increase the retention rate
of my female students from 50% to 65%.")

## 68. Proposed Action Plan

Based on what you learned in Section I through Section IV, what intervention do you plan to apply in the classroom to improve the retention and success rates of your students? For example:

- a) Did you find any enrollment, retention, and success trends that you would like to address in your action plan (Section I)?
- b) Are there student engagement and/or teaching and learning strategies that you would like to experiment in your classroom to better connect with your students (Section II)?
- c) Is there a need for you to revise your syllabus and other course materials to incorporate equity-minded language (Section III)?
- d) Are there changes you would like to make in your classroom tardiness, attendance, and assessment policies that would increase the retention and success of students from any background (Section IV)?
