

Metro Series Mini Travel Optical Mice

Go Mini! This mini optical travel mouse works great on the go. The ultra-portable design takes up little space and is perfect for notebook users. No need to wrap the cord around the mouse or deal with tangles; the optical travel mouse features a convenient retractable USB cable. On a plane or in a car, plug this mini mouse into your USB port and start dragging and dropping files. This portable mouse works on any computer with a USB port.
