1

K-2 Student Resource & Welcome Center

Outreach Department provides campus tours, peer student support, as well as student services information. Health Services provides medical care to students such as basic urgent care and preventative care and provides emotional care such as stress management and crisis intervention.

2

A-1 Continuing Education (CE) & A-2 Policy Academy

CE offers English as a Second Language classes for adult learners. Police Academy provides recruits with the skills, practical training, and discipline to prepare them for a long and rewarding career in law enforcement. Serves law enforcement agencies throughout San Diego County and beyond.

3

F-1 Aviation

Get extensive classroom instruction, work experience, and top notch training in aviation maintenance & operations. Learn more about drones, get hands-on flying experience, and gain the knowledge to become a commercial drone pilot.

4

F-2 Child Development Center

Child Development program offers classes and training to meet the states licensing requirements in order to work in preschools, child care homes, and other service related agencies. Student enrolled in lab classes can sign up their children for the center, there is a cost and it is based on student income.

5

J-2- Fitness Center

Nutrition and physical activity classes such as dance/aerobics, access to tennis courts, and basketball courts. Miramar College sports include Men & Women's Water Polo, Women's Soccer, Men's Basketball, and Men's & Women's Volleyball

6

I - English

English classes are located here, including lecture halls and English professors' offices.

7

H - Arts & Humanities Building

Houses classes such as psychology, behavioral science, art history, history, language, and communication. The Ceramics lab includes spinning wheels, glazes and oven for completed works for pottery, sculpture and other artistic projects. The Art Studio Lab includes drawing tables, easels, freehand drawing, and painting classes.

8

L - Library Learning Resource Center

Provides computers, copiers/printers (pay for print), reference assistance, group study rooms, and WiFi. The ASC (Academic Success Center) is dedicated to helping students succeed in their classes by providing quality academic support services. The ILC (Independent Learning Center) is an open student computer lab for students. The Writing & English Language Lab provides writing, reading, & studying support.

9

Compass Point

Center of Miramar College. The outer rim: The grassy area is actually a giant compass with degree markings. Inside the compass: It lights up at night in the shape of an hourglass which is a replica of the hourglass shaped runway that used to be on the military base to help be easily identifiable from the air.

10

R Buildings- Fire Technology & Emergency Medical Technician (EMT)

The Fire and EMT training center benefit 50 departments countywide. Fire Technology trains individuals to perform rescues and protect lives and property from fire. EMT training is designed to offer comprehensive education and skills-training in the provision of pre-hospital emergency care.

11

M- Business & Math

Classrooms include computers built into the desks and hook-ups for laptops at each working station & lecture classrooms with smart technology. The Math Lab offers a computer-assisted lab and tutoring area for math.

12

S-5 & S-6 Science

Miramar offers degrees and certificates in the sciences, including Biology, Biotechnology, and Medical Laboratory Technician. Miramar has been named one of only six official biotech centers offered by California Community colleges.

13

T-1 Campus Police

Emergency Response Services and Safety Escort Services run 24/7, available to all students, staff, and even visitors to the college. Here is where you pick up your parking permit and dispute parking tickets.

14

S-2 & S-3 Advanced Transportation Technology

Miramar is one of only ten Advanced Transportation Technology Centers in the state, offering programs in advanced automotive and alternative fuels technologies. Students work with the latest technology, tools and equipment combining classroom study and hands-on dealership experience.

15

C-1 & C-2 Diesel Technology

Miramar College boasts career training in diesel and heavy equipment repair. We have successful partnerships with the Caterpillar Corporation, Hawthorne Machinery and other local industry leaders.

16

K-1 Student Services
