9. What aspects of this class contributed most to your learning?

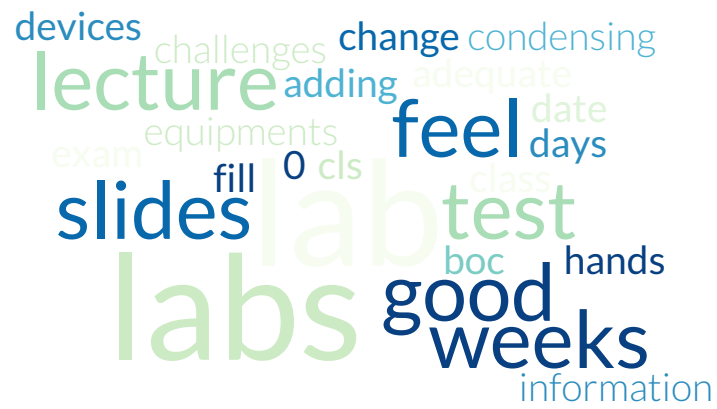

ResponseID	Response
3	Reading after class and the lab
22	the laboratory were very engaging and learned a lot.
23	Instructors knowledge on the material
24	The Professor used his experience as a cls to tie together what we were learning in class and applied it laboratory testing
25	every lectures were very details and the professor is very knowledgeable.
26	The lectures
27	The lectures contributed the most to my learning.
28	good I learn most of the chemistry tests and information
29	It gives me more intellectual about the clinical lan and disease and how it actually works
30	I'm able to understand how laboratory tests function and their relation to the human body
31	His knowledge was good
32	Professor Michael was very engaging with the class, and provided real life situation from his work to the course, to help with our understanding. The quizzes and exam reviews were also really helpful.
33	I think that the lectures were the best part of the course. The lab would have been better if the equipment were better
34	Quizzes
36	The quizzes.

10. What aspects of this class distracted from your learning?

ResponseID	Response
3	The long slides during class that have a lot information
22	I can't really say i found anything distracting.
23	Presentations were long and contained a lot of information
24	N/A
25	n/a
26	Figuring out how to use devices because instructions usually had to be corrected or didn't make sense. And we worked in groups and sometimes had trouble figuring it out altogether.
27	The aspect that distracted me from my learning is that some lab were very rushed or that the lab manual was not properly written.
28	Good, but I need more questions challenge in the test
29	Class schedule
30	Dense lectures
31	Organized and very knowledgeable teacher
32	No distractions in the class.
33	The lack of lab and the lab equipment mishaps were distracting and me and my groups weren't able to continue with the lab assignments.
34	quizzes and the Powerpoint slides
36	The long lectures, I feel like alot of information at once is too much to absorb.

11. What suggestions do you have for improving this class?

ResponseID	Response
3	Reducing the slides during lecture. I feel some information for the CLS.
22	course was really well structured wouldn't change anything.
23	N/A
24	More labs in the weeks leading up to the end of the semester
25	n/a
26	Use the lab notebooks
27	Putting the lab manual to date as we had to use different instructions every time.
28	need good devices and some challenges in the test and quizzes
29	I prefer this class in the morning
30	Adequate lab equipments
31	Use boc exam for quiz and test
32	Condensing the lecture slides,and adding more labs. Towards the end of the course there were no labs left to do.
33	I think that we just need more labs to fill out the days. The last month 2 weeks of the course got to repeated. Also newer equipments would be good.
34	Nothing
36	more interaction, I feel like I learn better being hands on.
