4. Please answer the following questions relative to other college courses you have taken:

|   | Much Lower | Average | Much Higher | Responses |
|---|------------|---------|-------------|-----------|
| Do you expect your grade in this course to be:                                  |            |         |             |           |
| Count   | 0          | 7       | 11          | 18        |
| Row %   | 0.0%       | 38.9%   | 61.1%       |           |
| The intellectual challenge presented was:                                       |            |         |             |           |
| Count   | 0          | 2       | 16          | 18        |
| Row %   | 0.0%       | 11.1%   | 88.9%       |           |
| The amount of effort you put into this course was:                              |            |         |             |           |
| Count   | 0          | 0       | 18          | 18        |
| Row %   | 0.0%       | 0.0%    | 100.0%      |           |
| The amount of effort to succeed in this course was:                             |            |         |             |           |
| Count   | 0          | 1       | 17          | 18        |
| Row %   | 0.0%       | 5.6%    | 94.4%       |           |
| Your involvement in this course (doing assignments, attending class, etc.) was: |            |         |             |           |
| Count   | 0          | 1       | 17          | 18        |
| Row %   | 0.0%       | 5.6%    | 94.4%       |           |
| <b>Totals</b>   |            |         |             |           |
| Total Responses   |            |         |             | 18        |

## 5. Hours spent for course preparation:

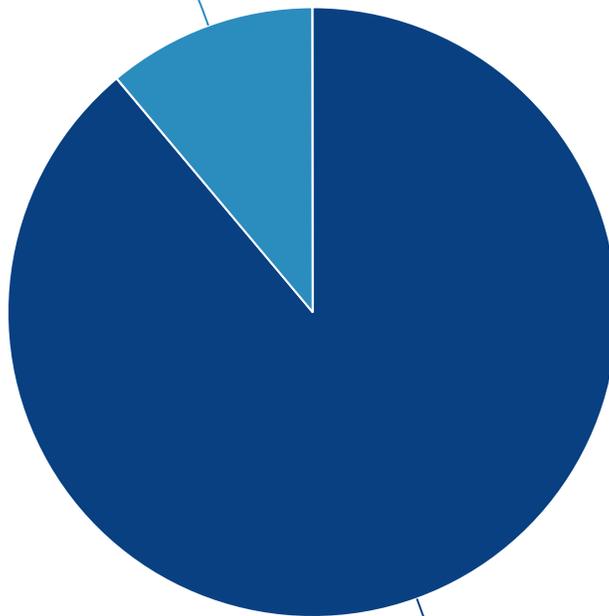

|   | Under<br>2 | 2-3       | 4-5        | 6-7        | 8-9        | 10<br>or<br>more | Responses |
|---|------------|-----------|------------|------------|------------|------------------|-----------|
| <p>On average, how many hours per week did you spend on the course, including attending class, doing readings, reviewing notes, completing assignments and any other course related work:</p> <p>Count</p> <p>Row %</p> | 0<br>0.0%  | 0<br>0.0% | 1<br>5.6%  | 3<br>16.7% | 4<br>22.2% | 10<br>55.6%      | 18        |
| <p>From the total average of hours above, how many do you consider were valuable in advancing your education:</p> <p>Count</p> <p>Row %</p>   | 0<br>0.0%  | 0<br>0.0% | 2<br>11.1% | 3<br>16.7% | 7<br>38.9% | 6<br>33.3%       | 18        |
| <p><b>Totals</b></p> <p>Total Responses</p>   |            |           |            |            |            |                  | 18        |

## 6. Final Grade:

|   | A (91-100%) | B (82-90.9%) | C (75-81.9%) | D (70-74.9%) | 8-9       | F (<69.9%) | Responses |
|---|-------------|--------------|--------------|--------------|-----------|------------|-----------|
| What grade do you expect to receive in this course:<br>Count<br>Row % | 11<br>61.1% | 7<br>38.9%   | 0<br>0.0%    | 0<br>0.0%    | 0<br>0.0% | 0<br>0.0%  | 18        |
| <b>Totals</b><br>Total Responses                                      |             |              |              |              |           |            | 18        |

## 7. Was the class intellectually stimulating?

11% Why or why not?

89% Yes (please elaborate below)

| Value                        | Percent | Responses |
|------------------------------|---------|-----------|
| Yes (please elaborate below) | 88.9%   | 16        |
| Why or why not?              | 11.1%   | 2         |

Totals: 18

### Why or why not?

Count

Class material was challenging required me to think critically and analyze different topics in order to understand them.

1

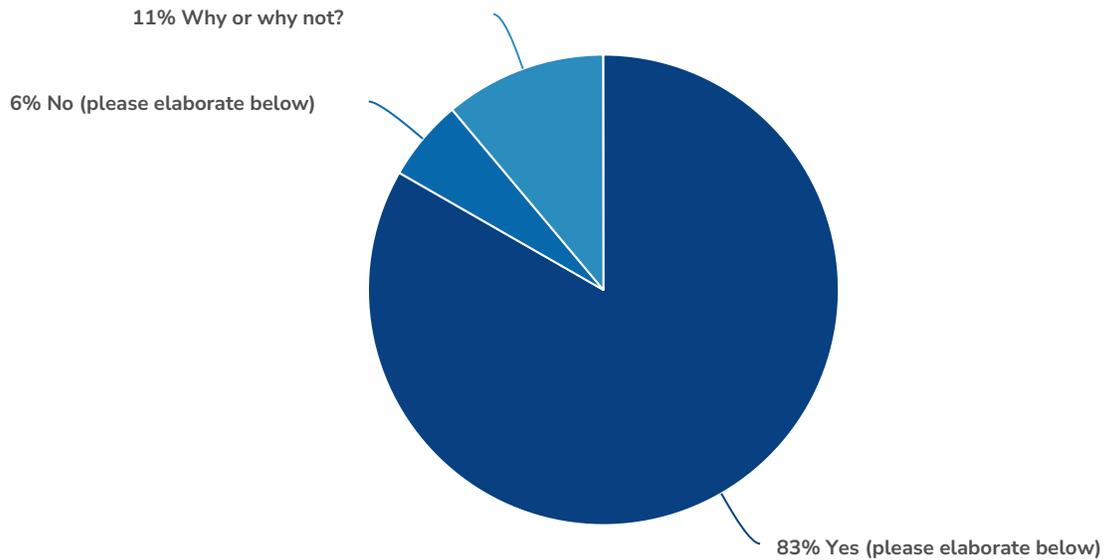

because the materials are very challenging and need extra time to understanding them

1

Totals

2

## 8. Did it stretch your thinking?

| Value                        | Percent | Responses |
|------------------------------|---------|-----------|
| Yes (please elaborate below) | 83.3%   | 15        |
| No (please elaborate below)  | 5.6%    | 1         |
| Why or why not?              | 11.1%   | 2         |

Totals: 18

| Why or why not?   | Count |
|---|-------|
| Yes I have to think out of the box and the professor was also very knowledgeable about the subject matter and provided stimulating discussion topics that helped me to further explore and understand the material. | 1     |
| because many informations need to understand them with logical thinking   | 1     |
| Totals  | 2     |

## 9. What aspects of this class contributed most to your learning?

| ResponseID | Response   |
|------------|--|
| 4          | Weekly quizzes encouraged me to study and understand the material . Labs were hands-on and engaging  |
| 5          | Hands on labs, and I am a visual learner so the pictures of the cells helped a lot. The review questions in the books also helped my understanding   |
| 6          | The class was very interactive in regards to the labs that were completed. Real scenarios that will be encountered on a daily basis as an MLT were introduced in class.  |
| 8          | The detail in the lectures along with visual aids contributed to my learning. its very important to be able to identify cells and constituents or products under a microscope or in clinical tests done in the lab and the imagery provided allowed me to correlate diseases, syndromes, cancers, infections, illnesses, and viruses to every image. It encouraged me to learn more on my own and do my own research to understand better what to look for if an image was not provided and just the description in certain situations and what to not mistake something for as sometimes it is very difficult to differentiate between two cells/ inclusions that seem identical but are not. |
| 9          | Correlating the lectures with lab component help understand the material and the reason for doing lab in the real world. The quizzes based on the BOC questions were also a good help in studying.   |
| 10         | The book was very informative and the time that was used on class was helpful.   |
| 11         | The various ways in which the material was presented, including lecture, and videos and context of discussion of the information. Great professor!!!   |
| 12         | It get more knowledge about the blood cell specifically and hematology in general.   |

**ResponseID    Response**

---

13                    Hands on training

14                    hematology

15                    Practice the Lab

16                    The lectures were very good. It aids in the understanding of the dense textbook. The class structure is also very organized which contribute the most to my learning.

17                    Push us to study all the chapters and special all the quizzes on every Monday.

18                    I think that the labs were the best at contirubuted in my learning. Of course the lecture gave the ground work of what we're gonna learn, but for me being hands on it much better. Since information for me sticks harder

19                    Lab and quizzes

20                    Practice the Lab

21                    she was very organized in all aspects , clear and straightforward procedure in lab

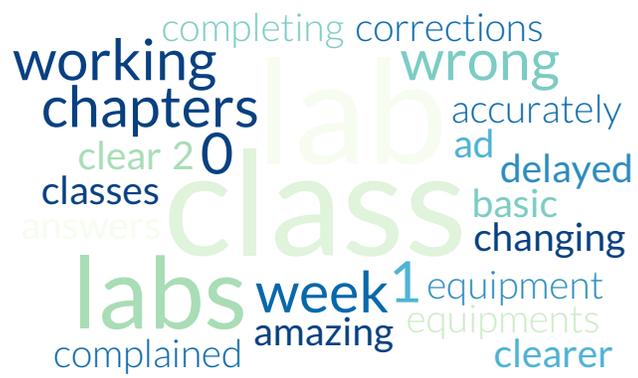

10. What aspects of this class distracted from your learning?

## ResponseID Response

|    |  |
|----|--|
| 4  | Having to go from a AM class to an evening class   |
| 5  | The amount of information given in a day, but it is how the course needs to be   |
| 6  | I don't feel that any aspects were distracting in the class. I felt all material and labs presented were beneficial for our future pursuit of an MLT career.   |
| 8  | The class was very demanding. Sometimes studying just for a quiz distracted me from learning the information as a whole since i had to hyper-focus on specific information. A test is just a test, as a student we want to pass. But whats important for an MLT is to be able to make educated suggestions and understand the information rather than memorize it.         |
| 9  | There was no aspect of the class that distracted me from learning. All aspect of the class aided me in my learning and studying.   |
| 10 | The PowerPoints had a lot of information on a single slide and that could be too much.   |
| 11 | A lot of information to memorize for class.  |
| 12 | Too much chapter and information in 1 week, I would be rather get to know more information but there are 4 chapters per week and sometimes I can focus the point to understanding because I need those time to study for quiz every Monday   |
| 13 | Broken machines in lab   |
| 14 | varieties of the questions for the test  |
| 15 | Nothing  |
| 16 | Fault equipments-expired, technical issues, etc.   |
| 17 | Nothing  |
| 18 | Probably the equipment that we were suppose to use that didn't work at all or the lack of supplies. When I mean supplies is that some of the reagent would be expired way beyond the year and/or it's some simple supply like len paper are scares to clean up microscopes. I also think we can have more labs that could also resembles what we will be doing in reality. |
| 19 | If the lecture take long time and a lot information  |
| 20 | no   |
| 21 | nothing  |

11. What suggestions do you have for improving this class?

## ResponseID Response

---

4 Clearer lab instructions in lab manual

5 None

6 Only thing i would suggest would be testing on equipment prior to labs. We ran into issues during several labs with equipment malfunctioning which delayed labs.

8 Free textbooks, we had to purchase two for this course. Hematology and urinalysis. The labs in the lab notebook were usually wrong and students had to make their own corrections, like changing the required volumes, changing the technique described. We payed for that as well. Express importance in completing the full lab, including the questions in the back, ad review the answers in the next class time. The classes have a long schedule of almost 4 hours. We almost always got out early. I liked it but I wouldnt have complained if we stayed thefull time as thats what I was expecting when I signed up for the course.

10 Having to do less chapters throughout the week. Instead of having 4 chapters, reducing it to 2 chapters per week.

11 Nothing the class and professor were amazing.

12 It would be better if there are only 2-3 chapters per week so I can learn material better and remember easier

13 Make sure lab equipment is working and ready for labs

14 none

15 NO

16 Updated equipments would be great.

17 This class was really good for me I think everything is normal in class.

18 I think that we need to have proper equipments that actually works. We need more basic supplies in the lab. As for the lectures I think it's a lot, but if it's going to be in the exam I can't help it haha

19 I thing the sound, it is not clear with devices sound, and some of devices is not working or not working accurately

20 no

21 i think there is nothing wrong with this class

12. Do you have any additional comments that are not addressed in the survey?

reagent machine  
time issue or  
classes  
supply difficult  
morning tho night  
work

**ResponseID** **Response**

---

4 No

5 Going from night to morning classes is a little difficult

8 No

10 No

11 No

12 NO

13 No

14 none

15 No

16 No

17 No

18 Not really. Thank you tho

19 No

20 no

21 the only issue was about supply , most of the time machine wasn't work or they were low in reagent or supply
