5. Additional comments about the organization of the course or effectiveness of the instructor:

ResponseID	Response
2	She's a very nice teacher
3	I thoroughly enjoyed Gale's class and appreciate her demonstrating her knowledge of the course.
4	Informative and uses experience to add input to the MLT field
8	Gale made hematology very easy to learn. Her course was constructed very well to allow us to succeed. Tons of studying but i feel it will prepare us for the state exam. Gale encouraged participation. Approachable with any questions we had and would thoroughly explain till we understood material.
10	she's very patient to explain any problem during lectures and labs practical and makes sure that students understand clearly for the subject.
12	Gale structure the course in a very effective and organized manner. Her use of the BOC questions truly helps to prepare me for the ASCP exam.
13	Gale structure the course in a very effective and organized manner. Her use of the BOC questions truly helps to prepare me for the ASCP exam.
14	She is really sweet and really good instructor and respect to all the students.
15	Just need more clear sound
16	It is very heavy on the course and technical, but let's us know if we need help
17	sdccd should be proud to have Mrs Shipley as part of their team.
27	There is too much information in a week and was quizzed too much chapter, hopefully it can be broken down smaller chapters

6. Which of the following best describes you in this class:

Value	Percent	Responses
I am keeping up with the work. I am doing all the assigned reading	62.5% <div><div></div></div>	10
I am keeping up with most of the work. I am doing most of the assigned reading	25.0% <div><div></div></div>	4
I am a little behind in the work. I am doing a lot of the assigned reading	12.5% <div><div></div></div>	2

Totals: 16

7. If you could change one thing about this department or service, what would it be?

ResponseID	Response
3	Consistent class schedules
4	Improves quality of lab equipment and preparation
8	All in all i feel course was provided exceptionally. All i would change would be preparation of equipment prior to labs to make sure the equipments isn't malfunctioning.
9	some old machines should replace
10	i would prefer to have all classes for MLTT program will be in the morning time
11	Make the library let us check out the BOC book during the summer because they're saying we can only check it out if we're registered for any MLT classes during the summer. I want to be able to check it out regardless. Summer is when I'd have more time. Class wont be in session. It feels very unhelpful on behalf of the school. I even emailed them to see if I can renew the check out date and they said no. I pay to go here, the library rules are no help. What's the library even for
13	Better equipments.
14	nothing.
15	The devices, we need more advanced devices
16	Probably how heavy the lectures are. Maybe make it more spanned out for the Hematology and put urinalysis back to the Chemistry class
17	upgrading the lab and equipments
