## **INFORMATIVE DIGEST**

The Chancellor's Office recommends the Board adopt a regulatory action to address recent legislation and to adopt definitions of core terminology that will apply to all of Division 6, of Title 5, which governs the California Community Colleges. The proposed regulatory action includes the following proposed changes:

- Adoption of definitions of core terminology related to the California Community Colleges to establish uniform usage in regulatory drafting.
- Adoption of a definition of the term "underrepresented in higher education" to conform to Assembly Bill 368 (2023), which added this definition to Education Code Section 76004, which governs the College and Career Access Pathways dual enrollment program.
- Section 55521 concerns the disclosure of information to students during orientation. Proposed amendments to this section would clarify and update the section in conformity with other sections of Title 5, and would include the disclosure of opioid overdose and overdose reversal information as required by Assembly Bill 461 (2023).
- Multiple sections would revise outdated references to the "Board of Governor's Fee Waiver" to the "California College Promise Grant."

## **ESTIMATED COST OR SAVINGS OF PROPOSED AMENDMENTS**

The estimated cost or savings attributable to the proposed regulatory action are anticipated to be as follows:

Mandate on local agencies or community college districts: *None*.

Cost or savings to state agencies: *None*.

Costs to local agencies or community college districts for which reimbursement would be required pursuant to part 7 (commencing with section 17500) of division 4 title 2 of the Government Code: *None*.

Other non-discretionary cost or savings imposed on community college districts: *None*.

Cost or savings in federal funding to state agencies: *None*.

The proposed amendments to title 5 would result in no fiscal impact to local or state governments, nor will it have any fiscal impact on any federal funding.
