Documentary: *Disturbing the Peace* is about people born into conflict, sworn to be enemies, who challenged their fate. The film follows everyday people who took extraordinary actions by standing for what they believe in. The movie challenges all of us – to understand the narratives we live within, to look at our current roles in our societies, and to decide what role we are going to play in creating a more humane world, for all. And it starts with our willingness to disturb the peace.

Amir Sommer: award-winning poet and author, brings his unique perspective as a child of mixed heritage, weaving a narrative that transcends borders and biases.
