

HireUp Program

The Hire Up program is designed to provide financial support to students who were formerly incarcerated, are CalWORKs recipients, or are former foster youth. This program offers stipends to help cover your college-related expenses, easing financial stress so you can focus more on your academic goals. The stipends are calculated based on an hourly wage and are tied to the number of units you're currently enrolled in, ensuring they align with your educational plan.

To be considered for the Hire Up Program you need to meet the eligibility criteria and let us know you are interested in participating.

Interested in the Hire Up Program? Fill out the interest form and talk to your program staff. Students must meet the eligibility requirements to participate in the program. Funding for Hire-Up is limited, submitting an interest form does not guarantee a stipend.

Impact on Financial Aid

Hire Up is a form of financial aid and is included in your total financial aid package. Hire Up wages may not exceed your unmet need for the academic year.

Unlike other types of financial aid, Hire Up earnings are not applied directly to your tuition and fees. Students who participate in Hire Up receive the funds in a monthly stipend, based on the number of units they are enrolled in directly aligning with the educational plan.
