Dear Zoom Account Holders:

Following our memo sent in Summer of 2024 regarding the Zoom Recording Storage Policy, we recognize there may be questions about upcoming deletion dates and which recordings will be affected.

To keep you updated, we've included a visual timeline for the system-wide deletion dates, including the type of recordings impacted. We have also included a link to our knowledgebase and an article on how to manually download your Zoom recordings and upload them to your TechConnect/3C Media Solutions account. Please note, each district is responsible for deletions and may have already communicated with you regarding your district policy dates and alternative storage solutions.

Please contact your district with questions about how this will impact you. If you are part of an organization outside of a college institution, please contact us with questions at support@ccctechconnect.org.

WEBINAR

Preparing for TechConnect's New Zoom Storage Policy

Date: May 8, 2025

Time: Noon-1pm

The new system-wide Zoom storage policy is set for full compliance by October 2025. The changes have brought about concerns and questions regarding the requirements and the auto-deletion schedule of recordings.

To ensure all colleges along with their faculty, staff and administrators understand how to implement the steps to conform to the policy, the TechConnect team will provide information, settings, and download options to preserve recordings such as:

1. Zoom Manual Download
2. Platform Services
3. iPaaS
4. Custom Applications
5. Zoom Downloader Application
