

# SAN DIEGO MIRAMAR COLLEGE

## Emergency Evacuation Chair Training

### Participants will learn:

- Operating evacuation chairs on stairs
- Correct posture, grip, and team lifting
- Safety tips for the evacuee

### Be the Hero on the Stairs!

Evacuation chairs are specially designed mobility devices that allow a person to be safely transported down stairs when elevators cannot be used. They are easy to operate with minimal training, provide secure seating for the evacuee, and help prevent injuries to both the user and the helper.
