A. Funds Request - Miramar Engineering Club | 10 minutes

- Teagan: I am president of Engineering Club
- Engineering: We were able to compete last year thanks to ASG's funding. It was a learning and networking opportunity, and we are hoping to go again this year.. We would like a sonar system that would help with underwater navigation. It will be a new, exciting learning opportunity. Our goal is to show a wide array of engineering opportunities in San Diego.
- Teagan Our total budget this year is looking to be about \$7965. We are seeking \$750
- PTK: What other means of funding do you have?
- Teagan: We were looking into the MESA program to help with travel funding and grants for the rest.
- Teagan: We could partner with another team, but it's unlikely? We think it is possible for us to at least get close to our funding goals.
- Pres. Michael: Last year we approved \$900 for Engineering Club
- Teagan: We have in robotics competitions competed for 4 years
- Teas. Liam: We have \$6000 for club funding this year.
- PTK: Could we approve them for more than their requested amount?
- Adv. Joseph: They can request up to \$750, but we can motion to give more.
- TPUSA: I think more requesting more money would be appropriate
- PTK: I agree, we should represent our school and support these programs.
- VP Liana: Would you appreciate having \$1000 instead of \$750?
- Teagan: It would help. We would like to afford the sonar equipment sooner rather than later. The competition is next summer.
- Sec. Kshitij: Would you be able to reuse the sonar equipment
- **Motion to Approve \$1500 to Engineering Club for their discretion - SPECTRUM, 2nd - MCPA, Roll Call Vote, PASS**
