

QUALITY & REGULATORY PRACTICES IN BIOTECHNOLOGY (BIOL 136)

Prepare to take the American Society for Quality's
Certified Quality Improvement Associate
exam - *a nationally recognized 3rd party certificate* - with BIOL 136!

This course is an introduction to basic quality principles and tools with an emphasis on their application to biotechnology. Topics include quality control, quality assurance, validation, documentation and regulatory compliance within the biotechnology industry. The course prepares students for the Certified Quality Improvement Associate (CQIA) examination through the American Society for Quality. It is intended for future or current biotechnology technicians.
